Re: MB Docket 10-56

Chairman Genachowski:

On behalf of the Lycoming County United Way, Pennsylvania, and all of our program partners, I would like to express our sincere appreciation of Comcast for all of the help and support it provides us. Comcast has been a reliable partner to United Way programs across the country, and ours is no exception. As you conduct your review of the venture between Comcast and NBC Universal, I hope that the commitments Comcast makes to the communities it serves will weigh in your decision making.

Comcast has rallied around Lycoming County United Way providing us support in every conceivable way. In addition to grants from the Comcast Foundation, Comcast is one of the most active companies in our employee giving campaign, yielding a remarkable 65% of local employees donating to us. This is a phenomenal statistic that exemplifies the spirit of giving that Comcast clearly fosters.

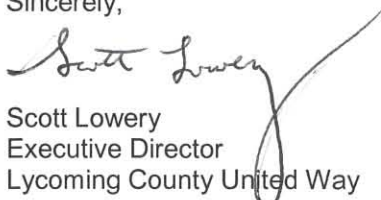

This spirit can also be seen in activities like Comcast Cares Day, the company's major annual volunteer effort. We have been proud to partner with Comcast on this initiative in the past and hope to do so again in the future.

In addition, Comcast sponsored the 2009 United Way Radiothon last December - a major annual fundraiser for us. Comcast generously donated phone service to accept phone calls from donors that responded to the radio plea on eleven radio stations.

Comcast provides a great boost to us and the 42 programs we assist in Lycoming County. Its support ensures continued resources so we can focus on five critical community needs areas: nurturing our children, serving those with special needs, caring for people in crisis, supporting our seniors, and strengthening our families.

Please keep these contributions in mind as you undertake your review. Lycoming County United Way strongly supports Comcast and its efforts to join with NBC Universal.

Sincerely,

Scott Lowery
